Keep Your House Clean Electrically

When you sweep with a broom, a large part of the dust and dirt is thrown into the air—to settle on the furniture and hangings, or back again on the floor. Only a fraction of it is permanently removed. But when an Electric Vacuum Cleaner is used, ALL the dust and dirt is deposited in a dust-tight bag. NONE is tossed into the air to make more work later on.

There is no "house cleaning time" where an Electric Vacuum Cleaner is used.
